

Exciting Features to Power Your Personal Expression

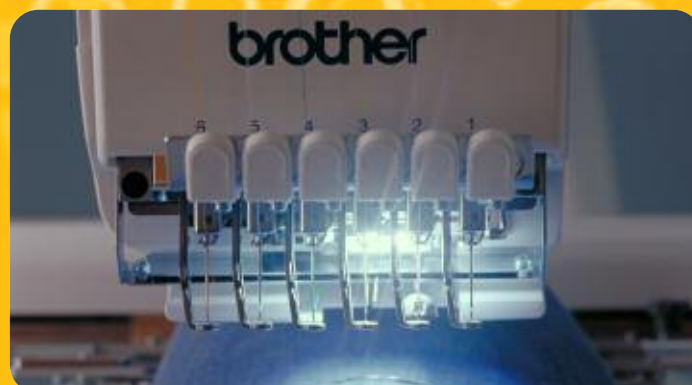

Extra-Large, Easy-to-Use Color LCD Screen
Manage all functions with a simple touch of the easy-to-read, extra-large, high-resolution color LCD control panel (8.3" x 3.1"). Intuitive commands and a built-in Quick Reference Guide make the control panel easy to use and quick to learn.

Cylinder Arm
The cylinder arm makes it easier than ever to embroider items such as caps, tote bags, sleeves, pant legs, shirt pockets and socks.

Automatic Color Changing and Thread Trimmer
Embroider multicolor designs quickly and easily. The automatic color change feature allows you to pre-program the correct thread color sequence for the entire design. The upper and lower automatic thread trimmers mean no time-consuming trimming after the embroidery is complete.

Super Bright Work Lights
The lights turn on for threading and editing and turn off when embroidering to avoid shadows.

PR-620 Optional Accessories* to Enhance Your Versatility

Start building your at-home embroidery business. With your talent and energy—and Brother's expertise in home and commercial embroidery technology—you can be successful! Now you can offer your customers even more by purchasing these new optional accessories for the PR-620!

Starter Kit
Start embroidering right away with these workroom essentials: thread, needles, bobbins, stabilizers, stock designs and more.

Stand
Set up your PR-620 in shopping malls, at trade shows, at fund-raising events. The PR-620 on the stand is 62" tall. Stand is 32" tall x 29" wide x 24" deep.

Cap Frame Set
The advanced cap frame gives you a generous area for cap embroidery. Now it's easy to add logos or your favorite phrase to a wide array of caps. The cap frame embroidery area is 130mm x 60mm, approximately 5" wide and 2.4" tall.

Flat Frame
The unique design of this flat frame prevents fabric bunching when embroidering on the backs of jackets. The flat frame embroidery area is 300mm x 200mm, approximately 12" x 8".

Cylinder Frame Set
The cylinder frame set allows you to stitch fashion and logo embroidery on long, narrow pant legs, sleeves and other locations with ease. The cylinder frame embroidery area is 90mm x 80mm, approximately 3.5" x 3".

Professional Power to Expand Your Business

The Best of Both Worlds

Brother has an established reputation for manufacturing high-quality sewing and embroidery machines for both the industrial and home products markets. In fact, Brother is the ONLY manufacturer with expertise in both worlds, which is what makes the PR-620 so special.

We understand what it takes to engineer a machine that's powerful enough to create and friendly enough to encourage your creativity. And, Brother's outstanding training and support are always "at your side."

The Brother PR-620 gives you the power of a commercial embroidery machine with the ease of use of a home embroidery machine. This sleek, contemporary-looking machine is compact enough to fit almost anywhere in your home or shop. It's also portable enough to take on the road.

Best of all, its attractive price makes it possible for you to realize big dreams with a small investment. With the PR-620 you can start a business or add value and flexibility to your existing business.

Built-in Keyboard Lettering
Thirteen size-adjustable, built-in lettering fonts give originality to all your projects. A feature exclusive to Brother.

All This at Your Fingertips

FEATURE SPOTLIGHT

Easy Embroidering with 6 Needles & Automatic Needle Threading

- ✿ Embroider multicolor designs quickly and easily
- ✿ Embroider faster and increase production capability
- ✿ Upper thread passes through the needle with a touch of a button

Eight-Sided Design Trace

Automatic, eight-sided design trace gives you more accurate design placement. A feature exclusive to Brother.

Individual Stitch Backup

Back up designs by individual stitches, color blocks or groups of 100 stitches.

Design Memory Retention

Your designs are retained in memory after the machine is shut off.

Built-in Thread Color Information

Wide selection of built-in thread color information makes it easy to choose the appropriate colors.

Digitizing Software

Compatible with Brother's award-winning PE-DESIGN® software for use with popular home and commercial embroidery formats.

Customize Designs on Screen
Powerful customizing capabilities include arranging text, pattern rotation in one-degree increments, changing design size (increase 10%, decrease 20%) and the ability to combine designs and add lettering to your designs.

Computer Connectivity
Easily import designs from your computer to the PR-620 via the on-board connection. Also allows machine updates from Brother.

Full USB Host
Import and export designs and/or save your patterns on a USB memory stick.
