

## Prepare to be spoiled with the Duetta™ 4500D's advanced sewing, embroidery and quilting.

Seamstress, quilter, crafter, embroiderer... If you love the drape of fabric and the sheen of thread, you satisfy your creative cravings with many types of sewing. Your machine should be able to do it all. The Duetta™ 4500D can. Premier embroidery, sewing and quilting features and technology intuitively integrated into one machine and engineered for precise performance on any project you put under the needle.

Multi-directional sewing capability—in eight key directions—helps you sew complex details or in tight areas with less fabric handling and more accuracy.

The generous embroidery area (12" x 7") gives designs room to grow. Advanced threading and trimming make embroidery fast and easy.

The extra-large quilting extension table, pivoting function and array of free-motion feet take quilting to a whole new level. Its rich library of built-in designs and decorative stitches begs to be sewn, and its easy-to-use features streamline your sewing, giving you confidence to pursue any creative dream.
